Introduction & Block Types

The Scrappy Mountain Range foundations are meant to be used like blocks - to be played around with and used to build your own unique mountain ranges. But, due to popular demand, I have developed a throw sized quilt that takes the guess work out of figuring out what blocks to put where and how to sash and space them.

Before we get started, I think it would be a good idea to go over the types of the foundations we will be using in this pattern.

You will see foundations like this in the Scrappy Mountain Range foundation bundle.

For clarity, they will be simplified like this in this quilt pattern.

After the foundation has been pieced, it will be shaded to represent fabric. All shaded blocks are fabric side up. Note that the orientation of the mountains has changed.

Types of Mountains:

Single Mountain

Mountain in front, with a peak behind to the left or right.

Mountain in background with half peak to the left or right.

Three overlapped peaks. Overlapped to the left or right.

Three peaks with the side peaks in front.

Two half peaks.

Left and right half peaks.

Printing Instructions

There are 92 foundation paper pieced Mt. Range blocks in this quilt. We will use blocks in all 5 sizes and all the basic shapes. Each of the Mt. Range shapes has three variations (different snow caps) except for the 1" x 2" blocks, which have two. It is up to you to choose which variation you want to use. Don't over think it. They will all look great! The table below indicates how many of each foundation type are needed and what pages they are on. The 1" - 3" tall blocks have multiple foundations on each page, so not as many pages will be needed. You can print all the foundations at once, or print as you make the blocks.

Fabric Requirements and Cutting Instructions

Fabric Requirements: **Scraps:** a total of about 3 yards **Background fabric:** 3 3/4 yards
Binding: 1/3 yard **Backing:** 4 yards **Batting:** at least 64" x 74"

Cutting Instructions:

There are a lot of spacing strips in almost every possible size. Thankfully, there are standard heights. I recommend cutting width of fabric (**WOF**) strips and then sub-cutting the strips to the correct lengths as you need them. (Note: cutting instructions continue onto the next page.)

Background Triangles for the Mt. Range Blocks**

For the 5" x 10" Blocks

- (3) 7" squares cut in half on the diagonal (use all 6)
- (3) 8" squares cut in fourths on the diagonal (use 10)
- (1) 13" square cut in fourths on the diagonal (use 2)

For the 4" x 8" Blocks

- (10) 6" squares cut in half on the diagonal (use all 20)
- (4) 7" squares cut in fourths on the diagonal (use 15)
- (1) 11" square cut in fourths on the diagonal*** (use 1)

For the 3" x 6" Blocks

- (10) 5" squares cut in half on the diagonal (use all 20)
- (5) 6" squares cut in fourths on the diagonal (use 18)
- (1) 9" square cut in fourths on the diagonal (use 2)

For the 2" x 4" Blocks

- (8) 4" squares cut in half on the diagonal (use 15)
- (4) 5" squares cut in fourths on the diagonal (use all 16)
- (1) 7" square cut in fourths on the diagonal (use 1)

For the 1" x 2" Blocks

- (7) 3" squares cut in half on the diagonal (use all 14)
- (5) 4" squares cut in fourths on the diagonal (use all 20)
- (1) 5" square cut in fourths on the diagonal**** (use 2)

** Save fabric by using scraps from the leftover strips when possible

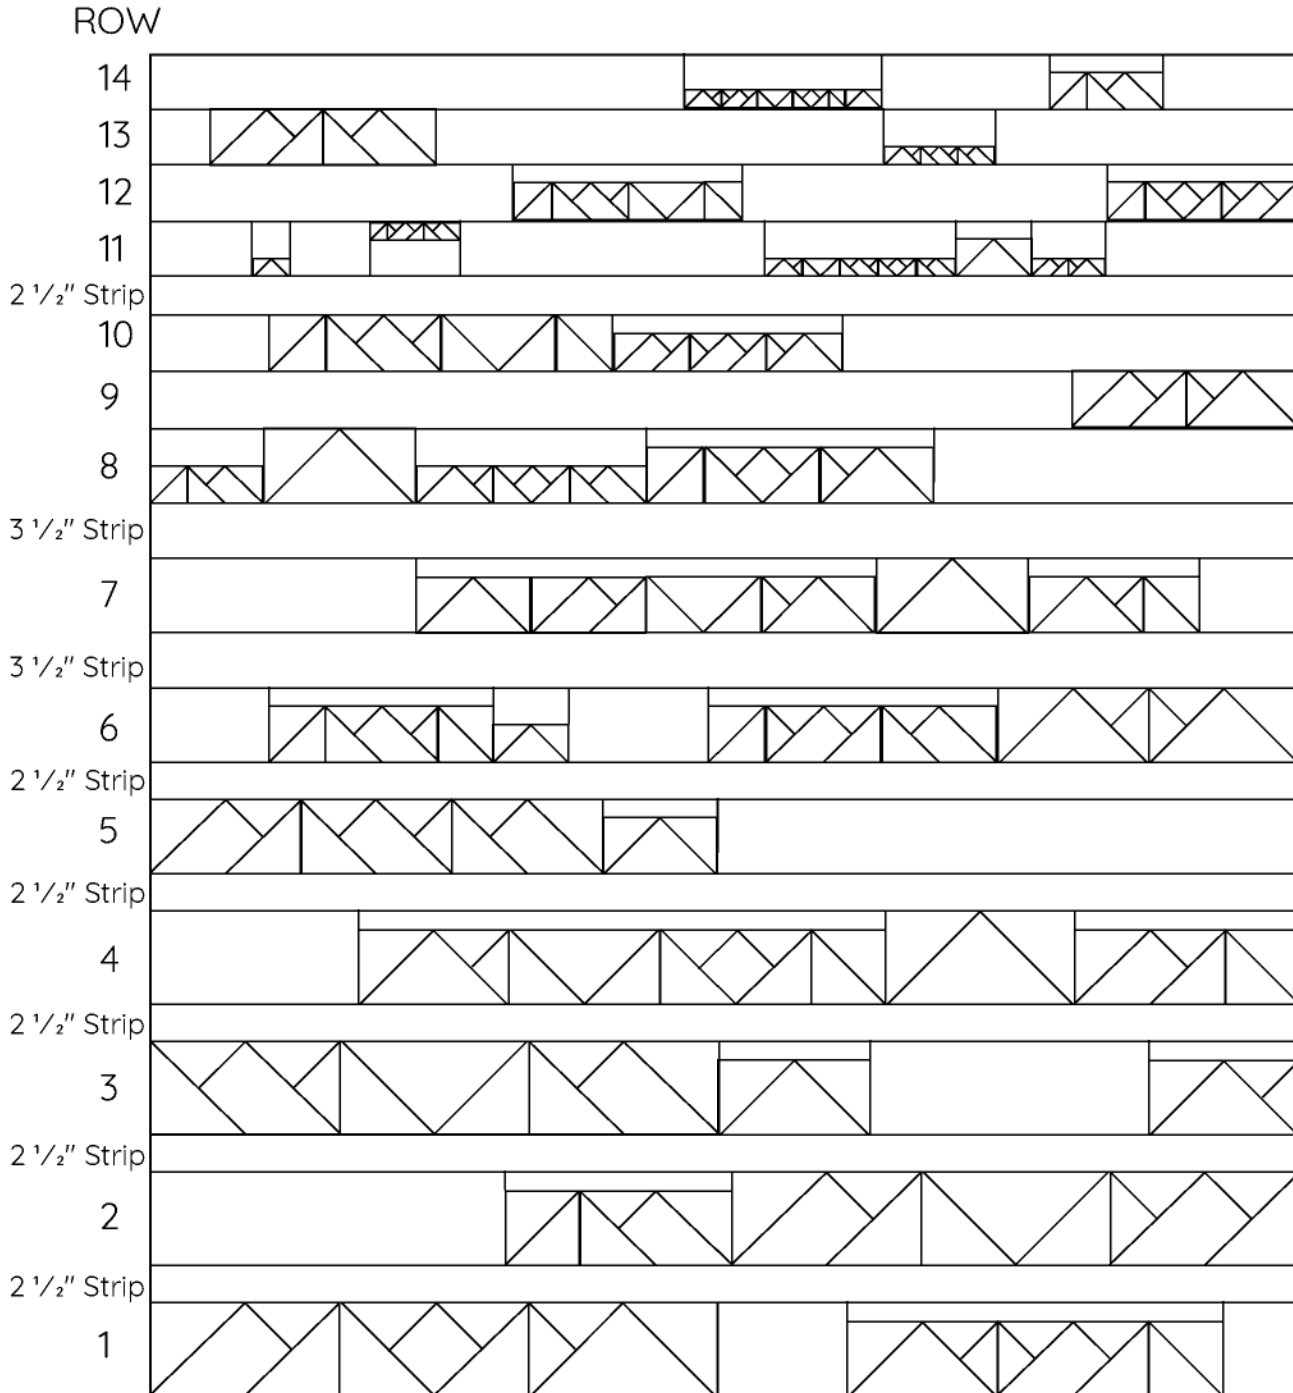

*** Save fabric by using the leftover quarters from the 5" x 10" blocks

**** Save fabric by using the leftover quarters from the 2" x 4" blocks

Quilt Layout

Refer to this diagram when it is time to sew the rows together.

You can also color it in to try different color combinations and refer back to it when sewing the foundations.

Construction

This quilt is constructed row by row, starting at the bottom. The piecing diagrams for each row are found below. The line drawn mountains represent the foundations you will need to piece. The shaded mountains on the lower half represent the fabric side of the foundations.

1. Working row by row, lay out foundations as diagrammed below*, printed side up. The foundations are the mirror image of the finished blocks.
2. Label each section of the foundations with the color fabric you plan on using.
3. Foundation paper piece all foundations in the given row and trim.
4. Sew adjacent blocks of the same size together. Remove paper at the seams and press open.
5. As needed, sew the thin strips of background fabric onto the blocks. Press to the strip.
6. Sew the mountains and spacing background fabric together. Press towards the fabric.

* Note: As the foundations get smaller, the graphics showing the foundations will remain large and the final row construction graphic will return the foundations to scale.
